

Pride Fumigation

P.O. Box 1778, Corona, CA. 92878

Office: (951) 432-7758 Fax: (951) 432-7759

Important Notice

Gas/ Propane/ Electric Closures and Restores

Property Address: _____

Fume Dates: _____

Please indicate (circle one) if the structure to be fumigated has the following:

GAS

PROPANE

ALL ELECTRIC

Regarding Gas:

As part of the fumigation process, the natural gas service will need to be turned off. Effective October 28, 2002, under the Department of Transportation Operator regulations, **ONLY utility personnel** may perform natural gas service closures and restorations at fumigation sites.

Pride Fumigation will arrange with Southern California Gas Company for the gas TURN OFF (closure) for the morning of the scheduled fumigation or as early as the prior afternoon. This is not your responsibility. Please do not call Southern California Gas to schedule a time for them to come out to turn off your gas. **If the customer changes the date for turn off, the fumigation may need to be cancelled and/or rescheduled for a later date/time.** You must ensure that your gas meter is accessible to the gas company. There cannot be any locked gates preventing access to the meter or dogs near the meter.

However, **occupants are responsible for calling Southern California Gas Company to have their gas service turned back on (restored).** Please make sure to contact them 48-72 hours in advance of the desired restoration date. You will need to be present at the property to provide access to the interior of your home. You will also need to provide them with the *Notice of Re-Entry* form that is left at the entrance to the structure and tagged on the gas meter when the fumigation is completed. **Do not remove the form from the gas meter.** You may schedule your appointment with the gas company for as early as the same day your property is cleared for re-entry for a PM restore. However, there are no guaranties, as Southern California's scheduling is based entirely on their own availability.

Southern California Gas Co.: (800) 427- 2200

Regarding PROPANE:

The Owner/ Agent will need to call the propane company directly to notify them about the fumigation and schedule a SHUT OFF.

Regarding ELECTRIC:

The Power will need to remain **ON** throughout the entire fumigation process.
